

EPO REPORT

David, Manolis
UEC meeting
January 17, 2020

Outreach and Education

- Outreach and Education volunteers -> How to encourage people to be an active member in the different roles of outreach and education activities within the laboratory and other opportunities?
- Our help with UEC Gov Relation/ Washington
 - Idea: Videorecording experienced speakers
 - Organize a science and communication training in March
 - EPO will contact Andre salles to evaluate the possibility of the training
 - From Rebecca Thompson (2 days ago): “Fermilab EPO is going through a strategic planning process over the next few months. I'm creating a task force looking at how our office can work with Fermilab employees and users”
 - We (Manolis and myself) will be part of the task force

Outreach and Education: Volunteers

- Generate a template email (including a 5 min survey + information about different outreach/ education activities at the lab) and share with:
 - Spokespersons
 - Contact ‘Young’ DUNE/Microboone/g-2/DES/CMS/NOvA/Mu2e associations?
 - FSPA could play a nice role here :)
 - Contact Fermilab Office of Education and Public Outreach
 - Point of contact from EPO with Fermilab Office of Education and Public Outreach (Liaison - > Deputy EPO) -> Manolis
- Meet and greet Today
 - Take advantage here to familiarize people with EPO goals to enhance participation of users in outreach activities
- Idea: Can we try to get one calendar with the different activities planned by Fermilab during the next year?
 - Where we could (and its nice) help?
