

# Workshop on the LEM/Thick GEM cryogenic utilization in pure Argon over large detection surfaces

## Monday, 6 April 2020

### Experience from protoDUNE-DP, production means, simulations (09:00 - 12:00)

-Conveners: Dario Autiero

| time  | [id] title   | presenter             |
|-------|--|-----------------------|
| 09:00 | [0] Introduction   | Dr DELBART, Alain     |
| 09:10 | [1] LEMs for protoDUNE-DP, design, QA/QC and tests           | Dr MAZZUCATO, Edoardo |
| 09:40 | [2] Experience with LEMs in protoDUNE-DP                     | EURIN, Guillaume      |
| 10:10 | Break  |                       |
| 10:25 | [3] THGEM Production (including new processes and new ideas) | DE OLIVEIRA, Rui      |
| 10:55 | [4] THGEM simulations  | CORREIA, Pedro        |
| 11:25 | [5] Discussion on LEMs performance in protoDUNE-DP           | Dr DELBART, Alain     |
