

Workshop on the LEM/Thick GEM cryogenic utilization in pure Argon over large detection surfaces

Tuesday, 7 April 2020

Integration of LEM/Thick GEM on large readout surfaces (14:00 - 18:00)

-Conveners: Filippo Resnati

time	[id] title	presenter
14:00	[12] Design of protoDUNE-DP Charge Readout Planes	Mr AIMARD, Benjamin
14:30	[13] Experience with Charge Readout Planes in protoDUNE-DP operation	DUCHESNEAU, Dominique
15:00	Break	
15:15	[15] Electrostatic aspects: charging up effects of dielectrics	YU, Bo
15:35	[16] Foreseen CRP improvements for phase II of protoDUNE-DP	Mr AIMARD, Benjamin
16:05	[17] Discussion on Charge Readout Planes improvements	DUCHESNEAU, Dominique
