

Nuclear Safeguards and Other Applications

Conveners: Nathaniel Bowden (LLNL), Jonathan Link (Virginia Tech),
Wei Wang (Sun Yat-sen University)

Topics	Possible Overlapping Topical Groups & Frontiers
Near-Field Reactor Safeguards	Sterile Neutrinos Neutrino Detectors Neutrino Properties Artificial Neutrino Sources
Far-Field Reactor Safeguards	Neutrino Detectors Artificial Neutrino Sources Neutrino Properties Neutrino Oscillations
Geoneutrinos	Neutrino Detectors Neutrinos from Natural Sources Artificial Neutrino Sources
Applications of HEP Technology	Neutrino Detectors Instrumentation Frontier
HEP/Neutrino Physics as a pipeline for Nuclear Security Organizations	Community Involvement?
