

# **Site Administrator's Workshop Aug 6-7, 2009**

Dan Fraser

OSG Production Coordinator

OSG Tier-3 Liason

## ● New T3s coming online

- Currently ~40 T3s
- 20-40 potential new T3s in next few years
- Stack depends on applications
  - OSG + Atlas/CMS
  - Athena/PROOF/...
- ~ 10 – 100s of CPUs
- ~ 2 - 20 Tbytes min
- ~ ¼ FTE to manage
- Site Admins are often physicists ☺

## ● OSG Support for T2's and T3's

Do what OSG does best:

-OSG software

Integration

Packaging

Support

Operations

Documentation

*-Extend to Cluster setup*

-Community Building

Coordination

Workshops

*Networking Tools*
