

## Search for the Higgs Boson in the WH- $\rightarrow$ WW- $\rightarrow$ lv.jj.jj Channel

*Wednesday, 5 August 2009 13:40 (20 minutes)*

During the summer of 2009, work began on the preliminary stages of an analysis of associated production of the Higgs boson. Our analysis group investigated the high mass Higgs channel WH $\rightarrow$ WW $\rightarrow$ lv.jj.jj, a channel that, to the best of our knowledge, has not yet been studied. This talk will explain the steps that are being taken currently on the way to a full analysis of this channel, principally data processing and multivariate analysis.
