

Workshop on Applications of High Intensity Proton Accelerators

Tuesday, 20 October 2009

WG4 : SRF Linac driven subcritical core (Room: 1North WH1NW) (13:30 - 18:15)

time	[id] title	presenter
13:30	[74] Liquid and Solid Spallation Targets	
	- [1] Liquid Target Experiment	, Claude Reed
	- [2] Spallation Driven Cold Neutron Sources	, Brad Micklich
	- [3] Topic Closing Remarks	, All
14:30	[75] Target/Subcritical Interface	
	- [1] Neutron Spectrum and Material Damage Issues	, Won Sik Yang
	- [2] Topic Closing Remarks	, All
15:05	[76] Current and Future Demonstration Projects	
	- [1] MYRRHA Project	, Hamid Aït Abderrahim
15:30	break	
16:00	[77] Current and Future Demonstration Projects (continued)	
	- [1] Japan ADS Program	, Toshinobu Sasa
	- [2] IAEA Member States Projects	, Alexander Stanculescu
16:50	[78] Accelerator Design Requirements for Driven Systems	
	- [1] Transmutation Mission	, Tomas Junquera
	- [2] Current and Required Accelerator Operating	, Richard Sheffield
	- [3] Topic Closing Remarks	, All
