

6th SRF Materials Workshop

Friday, 19 February 2010

Session 7: Forming and Welding (11:20 - 12:10)

time	[id] title	presenter
11:20	[80] Plans for improving stockpile and cost of fine-grained niobium and chipless forming of ingot niobium into cavity subassemblies	, Grimm (Niowave)
11:30	[81] Direct and indirect process feedbacks for the fabrication of 1.3 GHz elliptical SRF resonators to improve production yields	, Edinger (Pavac)
11:40	[82] Dislocations in niobium	, Baars (MSU)
12:00	[83] Homogenization of Nb microstructures	, Balachandran (TAMU)
