7th Geant4 Space Users Workshop

Wednesday, 18 August 2010

<u>Plenary session III - Aparatus simulation -</u> (14:00 - 15:40)

time	[id] title	presenter
14:00	[13] Use of Geant4 simulations in understanding LRO/CRaTER observations	Dr LOOPER, Mark
14:20	[12] SIXS module Dose Mapping and X-ray Detector - Bepicolombo mission	Dr GARCIA, Francisco
14:40	[14] The highly miniaturised radiation monitor	Mr MITCHELL, Edward
15:00	[23] Physics models for the simulation of biological effects of radiation and shielding with the Geant4 toolkit: the ESA AO6041 project	Dr INCERTI, SEBASTIEN
15:20	[37] discussion
