

# Workshop on Detector R&D

Thursday, 7 October 2010 - Saturday, 9 October 2010

Fermilab

## Book of Abstracts

# Contents

Welcome . . . . .	1
Goals of the Workshop . . . . .	1
A Personal Perspective of the US High Energy Physics Detector R&D program . . . . .	1
European Programs . . . . .	1
Argonne Detector R&D Programs and Facilities . . . . .	1
Berkeley Detector R&D Programs and Facilities . . . . .	1
Brookhaven Detector R&D Programs and Facilities . . . . .	1
SLAC Detector R&D Programs and Facilities . . . . .	2
Fermilab Detector R&D Programs and Facilities . . . . .	2
Test Beams: Capabilities and Limitations . . . . .	2
Challenges and Limitations in High Rate and Multiplicity Environments for tracking and vertexing . . . . .	2
Challenges and Limitations in Low Background Measurements . . . . .	2
Limitations to Precision Measurements of Jets . . . . .	2
Requirements on EM Calorimetry for Future Experiments . . . . .	3
Limitations and New Directions in PID . . . . .	3
Detector Challenges and New Developments in MPGDs . . . . .	3
Reflections on Understanding Detectors and Instrumentation . . . . .	3
Panel Discussion: Challenges Facing University and Laboratory Detector R&D programs . . . . .	3
Development of New Scintillators . . . . .	3
Development of New Photo Detectors . . . . .	3
Challenges in Radio Detection Techniques . . . . .	4
talk . . . . .	4
Wine, Cheese and Posters . . . . .	4

Lepton Collider Physics Goals and Detector Challenges . . . . .	4
LHC Upgrade Physics Goals and Detector Challenges . . . . .	4
Neutrino Experiment Physics Goals and Detector Challenges . . . . .	4
Non-Accelerator Experiments Physics Goals and Challenges . . . . .	4
Intensity Frontier Experiments and Challenges . . . . .	4
Trigger and DAQ requirements for very high rate experiments . . . . .	5
Radiation Limitations on Particle Detectors . . . . .	5
New Semiconductor and Other Technologies . . . . .	5
View from NSF . . . . .	5
Views from the Funding Agencies . . . . .	5
Workshop Summary . . . . .	5
Case Studies of Successful Lab - University Collaboration . . . . .	5
Radiation Detection R&D: Two HPGe Array Examples . . . . .	6
Trigger and DAQ challenges for the next generation non-accelerator experiments . . . .	6
Dinner at Chez Leon . . . . .	6
Physical Sciences Laboratories at Wisconsin . . . . .	6
Cornell . . . . .	6
Discussion and Workshop Conclusion . . . . .	6
Workshop Summary . . . . .	6
Views from the Funding Agencies . . . . .	7
Discussion and Workshop Conclusion . . . . .	7
Pizza and Posters . . . . .	7
Argonneut . . . . .	7
Large Area Photo Detector Project . . . . .	7
BNL Experience . . . . .	7
View from DOE . . . . .	7
View from NSF . . . . .	7
Collider Detector Research and Development Program at DOE . . . . .	8
Collider Detector Research and Development Program at DOE . . . . .	8
Discussion . . . . .	8

**Perspectives / 0**

## **Welcome**

**Corresponding Author:** ykkim@fnal.gov

**Perspectives / 1**

## **Goals of the Workshop**

**Corresponding Author:** brock@pa.msu.edu

**Perspectives / 2**

## **A Personal Perspective of the US High Energy Physics Detector R&D program**

**Corresponding Author:** hnichols@mtholyoke.edu

**Experimental Physics Goals and Detector Challenges / 3**

## **European Programs**

**Corresponding Author:** tatsuya.nakada@cern.ch

**Laboratory Programs II / 4**

## **Argonne Detector R&D Programs and Facilities**

**Author:** Hendrick Weerts<sup>1</sup>

<sup>1</sup> *Argonne National Laboratory*

**Corresponding Author:** weerts@anl.gov

**Laboratory Programs II / 5**

## **Berkeley Detector R&D Programs and Facilities**

**Corresponding Author:** siegrist@lbl.gov

**Laboratory Programs II / 6**

## **Brookhaven Detector R&D Programs and Facilities**

**Corresponding Author:** littenbe@bnl.gov

Laboratory Programs II / 7

## **SLAC Detector R&D Programs and Facilities**

**Corresponding Author:** dbmacf@slac.stanford.edu

Laboratory Programs I / 8

## **Fermilab Detector R&D Programs and Facilities**

**Corresponding Author:** ramberg@fnal.gov

Detector Challenges and New Developments III / 9

## **Test Beams: Capabilities and Limitations**

**Corresponding Author:** hast@slac.stanford.edu

Detector Challenges and New Developments I / 10

## **Challenges and Limitations in High Rate and Multiplicity Environments for tracking and vertexing**

**Corresponding Author:** mgarcia-sciveres@lbl.gov

Detector Challenges and New Developments I / 11

## **Challenges and Limitations in Low Background Measurements**

**Corresponding Author:** collar@uchicago.edu

Detector Challenges and New Developments I / 12

## **Limitations to Precision Measurements of Jets**

**Corresponding Author:** huston@msu.edu

**Detector Challenges and New Developments I / 13**

## **Requirements on EM Calorimetry for Future Experiments**

**Corresponding Author:** hma@bnl.gov

**Detector Challenges and New Developments II / 14**

## **Limitations and New Directions in PID**

**Corresponding Author:** jjv@slac.stanford.edu

**Detector Challenges and New Developments I / 15**

## **Detector Challenges and New Developments in MPGDs**

**Corresponding Author:** yubo@bnl.gov

**Experimental Physics Goals and Detector Challenges / 16**

## **Reflections on Understanding Detectors and Instrumentation**

**Corresponding Author:** para@fnal.gov

17

## **Panel Discussion: Challenges Facing University and Laboratory Detector R&D programs**

**Detector Challenges and New Developments II / 18**

## **Development of New Scintillators**

**Corresponding Author:** yeh@bnl.gov

**Detector Challenges and New Developments II / 19**

## **Development of New Photo Detectors**

**Corresponding Author:** rgwcdf@hep.anl.gov

**Detector Challenges and New Developments II / 20**

## **Challenges in Radio Detection Techniques**

**Corresponding Author:** varner@phys.hawaii.edu

21

**talk**

22

## **Wine, Cheese and Posters**

**Experimental Physics Goals and Detector Challenges / 23**

## **Lepton Collider Physics Goals and Detector Challenges**

**Corresponding Author:** john@slac.stanford.edu

**Experimental Physics Goals and Detector Challenges / 24**

## **LHC Upgrade Physics Goals and Detector Challenges**

**Corresponding Author:** abs@scipp.ucsc.edu

**Experimental Physics Goals and Detector Challenges / 25**

## **Neutrino Experiment Physics Goals and Detector Challenges**

**Corresponding Author:** rameika@fnal.gov

**Experimental Physics Goals and Detector Challenges / 26**

## **Non-Accelerator Experiments Physics Goals and Challenges**

**Corresponding Author:** crhall@umd.edu

**Experimental Physics Goals and Detector Challenges / 27**

## **Intensity Frontier Experiments and Challenges**

**Corresponding Author:** wmolzon@uci.edu

**Detector Challenges and New Developments I / 38**

## **Trigger and DAQ requirements for very high rate experiments**

**Corresponding Author:** wsmith@hep.wisc.edu

**Detector Challenges and New Developments III / 39**

## **Radiation Limitations on Particle Detectors**

**Corresponding Author:** zhengl@bnl.gov

**Detector Challenges and New Developments III / 40**

## **New Semiconductor and Other Technologies**

**Corresponding Author:** lipton@fnal.gov

41

## **View from NSF**

42

## **Views from the Funding Agencies**

43

## **Workshop Summary**

45

## **Case Studies of Successful Lab - University Collaboration**

**Wine and Cheese Seminar / 46**

### **Radiation Detection R&D: Two HPGe Array Examples**

**Corresponding Author:** craig.aalseth@pnl.gov

**Detector Challenges and New Developments I / 47**

### **Trigger and DAQ challenges for the next generation non-accelerator experiments**

**Corresponding Author:** srklein@lbl.gov

**48**

### **Dinner at Chez Leon**

**Experiences and Challenges of University and Laboratory Detector R&D programs / 55**

### **Physical Sciences Laboratories at Wisconsin**

**Corresponding Author:** ffeyzi@psl.wisc.edu

**56**

### **Cornell**

**57**

## **Discussion and Workshop Conclusion**

**Workshop Summary and Next Steps / 58**

### **Workshop Summary**

**Corresponding Author:** daniela@physics.purdue.edu

59

## **Views from the Funding Agencies**

Workshop Summary and Next Steps / 60

## **Discussion and Workshop Conclusion**

Posters and Pizza / 64

## **Pizza and Posters**

Experiences and Challenges of University and Laboratory Detector R&D programs / 66

## **Argoneut**

Corresponding Author: [mitchell.soderberg@yale.edu](mailto:mitchell.soderberg@yale.edu)

Experiences and Challenges of University and Laboratory Detector R&D programs / 67

## **Large Area Photo Detector Project**

Corresponding Author: [frisch@hep.uchicago.edu](mailto:frisch@hep.uchicago.edu)

68

## **BNL Experience**

Corresponding Author: [litt@bnl.gov](mailto:litt@bnl.gov)

Detector Challenges and New Developments III / 80

## **View from DOE**

Detector Challenges and New Developments II / 91

## **View from NSF**

**Corresponding Author:** jreidy@nsf.gov

92

## **Collider Detector Research and Development Program at DOE**

**Corresponding Author:** frederick.borcherding@science.doe.gov

**Developing a Future Program / 93**

## **Collider Detector Research and Development Program at DOE**

**Corresponding Author:** frederick.borcherding@science.doe.gov

**Developing a Future Program / 94**

## **Discussion**
