

# OSG STORAGE FORUM SUMMARY

Tanya Levshina

# OSG STORAGE GOALS

2

- Building the community: try to bring developers, resource providers and non-owner VOs together
- Listen and understand success stories and problems
- Collect various storage solutions, hardware and software configurations and spread out the knowledge
- Understand if we can help by providing auxiliary software (probes, discovery tools, plugins)

# Why are you here?

3

- Break from daily routine
- Meeting new people and old friends
- Finding out about new trends from storage developers
- Useful for developers to hear reports from the trenches

# Did it work?

4

- Let us know - [osg-storage@opensciencegrid.org](mailto:osg-storage@opensciencegrid.org)
  
- Organization of the meeting was terrific!
  - ▣ Thanks to Rob and Marco!
