

USCMS Tier 3 Workshop: Introduction

Rob Snihur
University of Nebraska – Lincoln
at Fermilab

History & Plan

- OSG All Hands Meeting (March @ Fermilab), CMS Tier 3 Session: Much discussion
 - Some conclusions:
 - Why have a Tier 3? CRAB jobs (see Eric's talk)
 - Phedex install & configuration is hard!
 - Central phedex service for Tier 3s (see Kurtis' How-to)
 - Workshop (see Carl's tutorial)
- CMS software stack
 - Install by hand (see Patrick's tutorial)
 - Install via grid job automatically (Bockjoo Kim)

Setup of a CMS Tier 3

- **Historically:** no requirements, lots of options → wild west
- **CMS Tier 3s:** organic evolution, interested sites take initiative, demonstrate proof-of-principle, provide community support → Social network!
- **Support:** hyper news, biweekly EVO meetings, Rob & Doug, savannah tickets, GOC, OSG campfire, mailing lists
- Couple months to set up (depending on effort & experience), <0.25 FTE to maintain
- **Software layers**
 - OS + batch cluster: both possibly chosen by non-CMS
 - OSG (also lots of options)
 - CMS specific

Support

- hyper news
<https://hypernews.cern.ch/HyperNews/CMS/get/osg-tier3.html>
- biweekly EVO meetings
<http://evo.caltech.edu/evoGate/koala.jnlp?meeting=eiese9vvnv2a8a9aDli>
- Rob & Doug: snihur@fnal.gov drjohn@pizero.colorado.edu
- Malina's Tier 3 admin guide
<http://hep-t3.physics.umd.edu/HowToForAdmins/index.html>
- USCMS Tier 3 computing twiki
<https://twiki.cern.ch/twiki/bin/view/CMS/USTier3Computing>
- savannah tickets
<https://savannah.cern.ch/>
- GOC tickets
<https://ticket.grid.iu.edu/goc/open>
- OSG campfire: Real-time chat 3 days per week, 4 hrs per day
<https://twiki.grid.iu.edu/bin/view/SiteCoordination/ChatCalendar>
- OSG Tier 3 twiki
