

CM 15 Working Group A2C - Materials

Connection information:

System: H.323 video

Meeting ID: 8854321

Phone connection: +1-510-883-7860 (no toll free number). You will still have to enter the LARP ID at the prompt, which is a little confusing since it asks for a phone number. Just input the meeting ID 8854321.

Web connection: point the browser to <http://mcu3.es.net> - pick any name, conference ID is 54321 (without 88, that corresponds to mcu3), no PIN required. Audio is not great but it works, and it will also show the slides being presented (but you are not allowed to present)
