

# 8th Argonne-UChicago-Fermilab Collaboration Meeting

## Tuesday, 7 December 2010

### UChicago Strategic Collaborative Initiatives Programs (16:30 - 17:35)

time	[id] title	presenter
16:30	[10] Introduction	LEVY, Don
16:40	[11] Rapid Identification of Heavy Quarks and Leptons at the Large Hadron Collider	SHOCHET, Mel
16:55	[12] Generation and Characterization of low-charge electron beams at the NML Facility with Applications to next Generation X-ray free-electron lasers	POWER, John PIOT, Philippe
17:10	[13] Development of Fast Direct-Imaging X-ray Fluorescence Computed Tomography	LA RIVIERE, Patrick
17:25	[14] Structure of S. Aureus and Metagenome Proteins Using Large-Scale Computational Resources	WILDE, Michael
