

NF conveners meeting

05/28/2020

Patrick Huber

Updates

- No response on funding agency support for meetings – at this time we probably best proceed assuming that there is none.
- Topical groups have email lists now, owned by the topical conveners
- Next meeting: Friday, June 12 10am (ET)

NF workshop Feb/Mar

- It would be good if all topical workshops were before this one.
- Therefore, need to move on site selection.
- What is the appropriate selection process?
- A) Kate, Elizabeth and I decide
- B) Form a panel (3-4 people) out of this group
- In any case, any host should consider a plan which can work w/o funding agency support. Cost has to be carried by registration fees.

Topical meetings/workshops

A	B	C	D	E	F	G	H	I	J	K	L

NF town hall											
NF workshop											

Proposal for Common Cosmic/Neutrino/Instrumentation/UG Facilities workshop
 Like to push all workshop prior to the NF genera workshop

Town Hall

- July 17 10am-1pm
- Request from Computing frontier to present for 15 minutes
- Will use indico to handle registrations and requests to present or to post questions/responses
- Accessibility – what do we need?

Town Hall format

- General update by conveners
- Questions regarding: **physics goals and motivation, theory and neutrinos** and **structure of the program**.
- The idea is that we probably should formulate 1-2 questions per topic to the community and we invite the community to also submit responses or their own questions for each topic in advance which then will be answered by conveners/topical conveners.
- Open mic session with pre-registration (and encouragement to take plugs for specific experiments/new initiatives into the LOI process)
