

Meeting Ideas for Artificial Nu Sources Group

- NF09: Artificial Neutrino Sources
 - Co-conveners: L. Fields, A. Marino, P. Ochoa, J. Spitz
- Considering having a meeting **before the Aug 31st LOI** deadline?
 - 1-2 days in late July (?)
 - Virtual meeting of a 3-4 hours per day with ~10-15 min presentations solicited from likely proponents
 - Also leave time for additional contributions or 5 min open mic talks?
- How to advertise the meeting? Can we send something via e-mail through DPF? Coordinate this between many groups?
