

# NF02: Sterile Neutrinos

Conveners: Georgia Karagiorgi, Bryce Littlejohn, Pedro Machado, Alex Sousa

**Sep/Oct 20:** Topical workshop on short baseline anomalies and sterile nus

- Current/future lab measurements, steriles in astrophysics and cosmology, alternative explanations of SBL anomalies, global fits, steriles+...
- Discuss LOIs and next steps

**After Oct 20:** Joint workshop NF02+NF03+NF08 (+NF01?)?  
steriles    BSM    theory    oscillations

**Spring 21:** Mini-workshop focused on writing sterile neutrino white paper and preparing Snowmass session

**LOIs:** Are we or Snowmass leadership soliciting LOIs? Actively inviting people to submit? Coverage?

**Large nu related events in 2021:** WIN (U. Minnesota, June), NUFACT (Italy, August), TAUP (Valencia, August), ...
