

Argonne Interest in EF04 for Snowmass

Jessica Metcalfe, Vallary Bhopatkar
Argonne National Laboratory

Interests

- Vector Boson Scattering (ssWW)
- Triboson (WWW)
- BSM: anomalous Gauge Couplings (aGC's)
 - Potentially a unified approach
- Experiment/Detector Performance prospects

Past Experience:

- ssWW 8 TeV ATLAS measurement
- WWW 13 TeV ATLAS measurement
- aQGC's
- HL-LHC performance studies
- Snowmass 2015
 - ssWW
