

Dept. Business

D. Broemmelsiek
AST Dept. Meeting
15 May 2020

Phased Opening

Guiding Principles

- Fermilab's first and primary objective is to safely accomplish our mission
- The Lab is required to protect the confidentiality of employee's medical information while protecting the health and safety of everyone
- The Lab will respond immediately to mitigate any viral threat, notify impacted individuals, and minimize or eliminate exposure to others
- The Lab will use CDC guidance and a scientifically based approach in response to this health crisis
- Personnel reporting to Lab work sites are expected to adhere to Fermilab's requirements on safe work practices

Phased Opening Cont.

- Safe Standby (current status)
- Expanded Essential Phase (Planning)
- Mission Critical Operations
- Limited Operations
- Normal Operations with Maximum Telework
- Normal Operations

Guidance

[Employee Information and Requirements](#)
