

- Operations
  - SLF6 decommissioning September
  - Hepcloud - theta
  - Tape library purchase. Concerned about getting things into procurement in enough time.
- Project Management
  - JOG meeting on July 23rd - only 4 months since last JOG.
  - Developing web pages to describe WBS areas
  - Developing Gantt chart to show progress
  - Discussing diversity database request for USCSMS

U.S. CMS Software & Computing Operations Program

## U.S. CMS Software and Computing Mission

The mission of U.S. CMS Software and Computing is to develop and operate the software and computing resources necessary to process CMS data expeditiously and to enable U.S. physicists to fully participate in the physics of CMS.

## U.S. CMS Areas

U.S. CMS S&C is broken down into 5 areas:

- Facilities (WBS 1)
- Software (WBS 2)
- Operations (WBS 3)
- HL-LHC R&D (WBS 4)
- Blueprint (WBS 5)
