

NF02: Sterile Neutrinos

Conveners: Georgia Karagiorgi, Bryce Littlejohn, Pedro Machado, Alex Sousa

Questions for Town Hall

1. How can the SBL experimental program data be used for other physics searches? What is the optimal form for data releases (see e.g. MiniBooNE, IceCube, MINOS, ...)?

LOIs

Reaching out to the community to submit Lols. Target theorists and experimentalists working on sterile-related topics. Efforts within DUNE are on the way. We started coordinating the effort with NF03.
