

Users Meeting Subcommittee Report

Cindy Joe

September 18, 2020

Still working on a few things

- Recordings are almost all uploaded to VMS streaming website (**thanks Lynn!**)
 - We have added them to the Indico agenda
 - <https://indico.fnal.gov/event/23109/timetable//?view=standard>

The screenshot shows an Indico agenda for 'Day 1 talks: Session 1' starting at 8:00 AM. The convener is Cindy Joe (Fermilab ND/Operations). The first item is 'Welcome & UEC Report' at 8:00 AM, lasting 25 minutes, with speakers Cindy Joe and Saptaparna Bhattacharya. It includes recordings for both speakers and UEC welcome documents. The second item is 'Recording - Cindy Joe - Users Meeting 2020 Chair's Welcome' at 8:00 AM, lasting 20 minutes, with speaker Nigel Lockyer. It includes a PDF of 'lockyer.pdf' and a recording link.

- Planning on also making a “one stop shop” link page on our website

Still working on a few things

- Recordings are almost all uploaded to VMS streaming website (thanks Lynn!)
 - Example:
<https://vms.fnal.gov/asset/detail?recid=1963396>
(the pasta class!)
- Still working with NASA to find out if we can publicize keynote recording outside Fermilab community

On Demand Video Stream

Title:
Festa Italiana

Presenter:
Donatella Torretta, Marco Mambelli

Presentation Materials:
(Not Available)

Still working on a few things

- Getting our poster session winners their prizes
 - Joy and Melody have their names and contact info to send checks
 - We need to make and print certificates and mail as well
- Need to work with Office of Communication on a news article / picture roundup
- Need to document everything for posterity and make this easier for not just next year's meeting but other virtual meetings
