

# Community Engagement Across the Frontiers: NF Perspective

There will be a 75 minute plenary session on Wednesday of the CPM, including a 60 minute panel discussion in which we discuss the concerns/ideas/positions on CEF issues in our respective Frontiers.

The goals of the session are to:

- 1) allow CEF and other Frontiers to highlight key CEF issues to the entire community at once
- 2) demonstrate to the entire community that CEF issues are for **EVERYONE** in ALL Frontiers to engage with

- [CommF1: Applications & Industry](#)
- [CommF2: Career Pipeline & Development](#)
- [CommF3: Diversity & Inclusion](#)
- [CommF4: Physics Education](#)
- [CommF5: Public Education & Outreach](#)
- [CommF6: Public Policy and Government Engagement](#)

- **What projects are we most excited about & why?**
  - DUNE, obviously, but also smaller experiments
- **What roadblocks do we/could we face?**
  - Funding? Career paths for ECRs?
- **Developing a (global) community**
  - University-level education?
  - DEI issues
  - What efforts are being undertaken for students and researchers in developing countries to be able to effectively participate in the field, in the US as well as back in their countries?
- **Anything else we wish to say?**
