The 28th International Workshop on Weak Interactions and Neutrinos (WIN2021)

Contribution ID: 340

Type: Poster session

Astroparticle and Cosmology Poster Session

Saturday, 12 June 2021 09:00 (1h 30m)

Poster sessions will be held online in the 2D and 8-bit virtual environment of Gather.town. This is an online platform with which you will be able to interact with your own avatar. You will be able to see the avatars of other attendees and hold video conversations with multiple people at once.

The password for the poster room Gather.town is in your email (in the "4th Bulletin") and on the conference slack. There is a also a poster index web page, where you can search through all the poster contributions, find out where it is located, and read the abstract and the poster pdf itself.

You can also vote for your favorite posters.

Session Classification: Astroparticle and Cosmology Session 2
