

Current status of Return to On-site Work Plan

- Round 7 of the return to on-site work plan starts tomorrow, 7/30
 - This is the 3rd round of the Limited Operations Phase
 - PPD will have approx. 125 employees on the essential personnel list, plus another ~25 associated users
 - In previous round, total number of staff at the lab each day was 600-700
- Current plan has the lab remaining in Limited Ops through Round 10
 - New rounds will start at least two weeks apart (nominally 8/13, 8/27, 9/10)
- The next phase will be Normal Ops with Max Telework
 - Earliest we could start this phase would be late September
 - Lab is still working on the details for how this will be implemented
 - Much will depend on how the situation with COVID-19 evolves in the coming months

Questions about Childcare

- What options are available for Fermilab employees who are still teleworking, but normally use the Fermilab daycare service?
 - We are discussing the possibility of those with children at the Fermilab daycare working from their offices during days when they bring their child to daycare, following strict guidelines to limit contact with other staff
- What options are available for on-site Fermilab employees who have children that will be e-learning this year?
 - Lab management recognizes that this year will be a challenge for parents as schools mix remote and in-person learning. After seeing the plans from nearby school districts, the lab is exploring what options are possible/legal/achievable to support parents. No specific options are available today, but stay tuned for updates.
 - If you have specific ideas, please share them and we can investigate.
 - Flexible work schedules may alleviate some pressures. We will work with employees and supervisors to explore solutions.

Miscellaneous

- Cafeteria

- Discussing reopening with limited options around mid-August
- Moving slowly because ANL re-opened their cafeteria earlier in the summer and had very little business
- Survey sent out to gauge level of interest from employees

- Clorica

- Expected to move back to evenings on a similar timescale
- Fewer requests for deep cleanings of buildings
- Survey planned for all users

- Screenings

- You should have seen the email about changes to screenings
- Temp checks will be performed by the guards
- Simplified questionnaire
