

Instrumentation for Future sub-mm Surveys

CPM #70

Snowmass 2021

DPF Core Principles and Community Guidelines (CP&CG)

- By participating in this meeting, you agree to adhere to the CP&CG
 - **Respect and support community members**
 - **Commit to constructive dialogue and take initiative**
 - Details of what this means, expectations for behavior, and accountability procedures are provided in the CP&CG document linked at:
<https://snowmass21.org/cpcg/start>
- Everyone is invited to invoke the CP&CG as needed to encourage constructive and supportive collaboration
- The conveners of this meeting are your recommended first point of contact for reports of CP&CG violations occurring here
 - The conveners have received training in the CP&CG and how to handle reports
 - The CP&CG accountability procedure is designed to encourage early intervention and is flexible enough to appropriately address issues ranging from the discourteous to the egregious
 - Please do not hesitate to contact us!
- Snowmass is most successful when everyone's voice can be heard!

Instrumentation for Future sub-mm Surveys

CPM #70

- 30 min panel discussion
 - Please stay muted with video off during session
 - To ask a questions use the 'raise hand' feature
- Panel: Adrian Lee, Kimmy Wu, Kirit Karkare, Mike Niemack
- Goals
 - Connect members of broader community
 - Help plan how to get from LOIs to Summer Study and Contributed Papers
- Questions
 - What are the most important questions and opportunities that can be reached by sub-mm surveys?
 - What instrumentation is needed to realize these opportunities?
 - What work is needed to realize the instrumentation?
- Session Notes
 - [Session Notes - Google Doc](#)

Snowmass Process

- Snowmass
 - An opportunity for the entire particle physics community to come together
 - Document a scientific vision for the future of particle physics in the U.S. and its international partners.
 - Define the most important questions for the field of particle physics and identify promising opportunities to address them.
- Timeline
 - Letters of Interest: August 31, 2020
 - Community Planning Meeting (CPM): Oct 5-8, 2020
 - Snowmass Mid-term Assessment: April 17-20, 2021 (during 2021 APS April Meeting)
 - Snowmass Summer Study: July 11 - 20, 2021
 - Contributed Papers: July 31, 2021
- CPM used to help plan how to get from LOIs to Summer Study and Contributed Papers
