As part of the on-going 2021 Snowmass process, the Neutrino Theory topical group TF11 is organizing a virtual **Neutrino Theory mini-workshop** to be held on September 21-23, 2020. The meeting will encompass a broad range of topics in neutrino theory, including neutrinos in astrophysics & cosmology, neutrino cross sections, neutrinoless double-beta decay, oscillations, mass and flavor model building, and BSM physics at neutrino experiments. More info on the topics covered by TF11 can be found [here](#).

We **strongly encourage you to submit a contributed talk** on any of the topics covered by TF11. Contributed talks are an **excellent opportunity for younger people** to contribute and allow one to present and discuss topics that were submitted to Snowmass as LOIs. Contributed talks may also serve as a trigger for LOIs. Your inputs are extremely valuable to the Snowmass effort.

Thank you from the [Topical Group TF11](#)

Code of Conduct for APS Meetings

It is the policy of the American Physical Society (APS) that all participants, including attendees, vendors, APS staff, volunteers, and all other stakeholders at APS meetings will conduct themselves in a professional manner that is welcoming to all participants and free from any form of discrimination, harassment, or retaliation. Participants will treat each other with respect and consideration to create a collegial, inclusive, and professional environment at APS Meetings. Creating a supportive environment to enable scientific discourse at APS meetings is the responsibility of all participants.

Participants will avoid any inappropriate actions or statements based on individual characteristics such as age, race, ethnicity, sexual orientation, gender identity, gender expression, marital status, nationality, political affiliation, ability status, educational background, or any other characteristic protected by law. Disruptive or harassing behavior of any kind will not be tolerated. Harassment includes but is not limited to inappropriate or intimidating behavior and language, unwelcome jokes or comments, unwanted touching or attention, offensive images, photography without permission, and stalking.

Violations of this code of conduct policy should be reported to meeting organizers, APS staff, or the APS Director of Meetings. Sanctions may range from verbal warning, to ejection from the meeting without refund, to notifying appropriate authorities. Retaliation for complaints of inappropriate conduct will not be tolerated. If a participant observes inappropriate comments or actions and personal intervention seems appropriate and safe, they should be considerate of all parties before intervening.

Core Principles and Community Guidelines

The DPF Ethics Task Force was asked to draft a set of core principle and community guidelines (CPCG) aimed at governing DPF sponsored activities, including all facets of the Snowmass Process (e.g., remote and in person meetings, and all slack workspaces).

A first complete draft can be found [here](https://docs.google.com/document/d/1OD8khEC0DKni_yMSdkzgdYvUUXH4O2pOCbCwGURILI) [https://docs.google.com/document/d/1OD8khEC0DKni_yMSdkzgdYvUUXH4O2pOCbCwGURILI].

The CPCG will be a living document that will be constantly improved upon as the circumstances dictate. Therefore, input from the community is welcome any time, either via comments in the doc, email to the task force members (see below) or through this form, [this form](https://forms.gle/vPguFjc2pQR2JwS6j) [https://forms.gle/vPguFjc2pQR2JwS6j]. Comments may be signed or anonymous. We ask that the comments to the CPCG follow the spirit of the CPCG and that the commentators keep in mind that our goal here is to improve on the CPCG .

We look forward to your input in crafting our community's principles and guidelines!
