

Calibration and Cryogenic Instrumentation News

José Maneira, Anselmo Cervera, Sowjanya Gollapinni
CALCI Consortium Meeting
September 9, 2020

IoLaser Initial Design Review

- “Initial” Technical Design Review of Ionization Laser System important to go ahead with ProtoDUNE-2 plans
- A step before an IDR, since the focus is on the design of the system itself and not on interfaces with other systems
- We had to move forward quite quickly, in order to maintain the PD-2 schedule
- Review to be held next week, over 3 days
- Agenda and review committee available here:
 - <https://indico.fnal.gov/event/45173/overview>
 - all documents need to be ready this friday, Sep 11.

Collaboration Meeting

- We will have 5 CALCI-related slots on the parallel session days at the upcoming September Collaboration Meeting
 - <https://indico.fnal.gov/event/22617/timetable/>
 - tuesday Sep. 22, 8:00 and 10:00am
 - wednesday Sep 23, 8:00 and 10:00am
 - thursday Sep 24, 10:00am
- Detailed agenda still evolving
 - joint 1 hr session with Calibration WG thursday 10:45am
 - possibly joint sessions with DAQSC and COMP
- If you have updates to give, please send us a request ASAP!
