

AF6 September Workshop

Thursday, 24 September 2020

Laser Drivers (10:45 - 11:15)

-Conveners: Mark Hogan

time	[id] title	presenter
10:45	[9] 221: High average power ultrafast laser technologies for driving future advanced accelerators	Dr KIANI, Leily
10:55	[10] 77: Spatiotemporal Control of Laser Intensity for High Performance Plasmabased accelerators	Dr PALASTRO, John
11:00	[11] 124: High average power femtosecond laser driver for plasma accelerators by compression of spectrally broadened high energy Yb:YAG lasers	Prof. ROCCA, Jorge
11:05	[12] Discussion
