

Snowmass Coordination

Energy Frontier

SEC EF General Meeting September 22, 2020

Amber Roepe¹ and Grace Cummings²

¹University of Oklahoma and ²University of Virginia

Outline

- Administrative Items
- Upcoming Events
- Special Event Talks
- Updates From Liaisons

Administrative Items

- For those new to Snowmass, more info on the Energy Frontier can be found on their [wiki page](#)
 - The slack channel includes specific channels for all TGs as well as a channel for our group:
 - #early-career-energy-frontier-coordination
- At the last meeting, we determined that we would like to have a rotating schedule for the leaders of SEC + EF
 - We made a form for those who would like to volunteer
 - Leadership Volunteer Form: <https://forms.gle/31ntDXw78iqEzFDq5>
 - Once we have a fair amount of volunteers, we will determine the schedule of leaders after Grace and I's 3 months is over
 - Currently, there are three people who have volunteered lead SEC+EF and we would like to have a couple more people so there are 2 leaders at any time
 - We will also be submitting our schedule to the D&I group to ensure we maintain diversity in our leadership
- We have a listserv! SNOWMASS-EARLY-CAREER-EF@fnal.gov (thanks Grace!)
 - To sign up, send an email to listserv@fnal.gov with no subject and the following in the body:
 - SUBSCRIBE SNOWMASS-EARLY-CAREER-EF [First name] [Last name]

Upcoming Events

- The Snowmass Community Planning Meeting is in two weeks: October 5-8 [\[Indico\]](#)
 - There will be a lot of EF parallel sessions focusing on specific topics from all topical groups
 - There will also be some great panels: "Global Accelerator Facilities for Future Particle Physics" and "Voices from the Community" should be particularly interesting to our community
 - Due to the overlap with our bi-weekly meetings, our Oct 6th meeting will likely be cancelled
- On Oct 20th we will have a special presentation from the EF04 TG - EW Precision Physics and Constraining New Physics

Upcoming Events

- America's Workshop on Linear Colliders (AWLC) 2020 is October 19-22nd [[Indico](#)]
- Development workshop on the ILC hosted by SLAC
- Grace and I have been working with the organizers to ensure EC voices and perspectives are represented

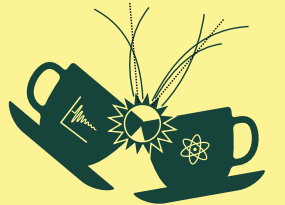

Upcoming Events

- SEC Inreach has organized a program called *Coffee Collisions*
- Sign up to be matched with someone who has similar interests as you, but at a different career stage
 - Please sign up before September 30th!
 - [Sign up form](#)
- If you have more questions, feel free to reach out to the in reach group at

• snowmass-ec-inreach@fnal.gov

Snowmass Early-Career Inreach presents ...

Coffee Collisions!

Collide with another Snowmass participant for a coffee to build a new connection. We'll find you someone to talk to, so you can just think about the future of physics!

Participants will be matched based on common interests, but across career stages, institutes and experiments.

Sign up here for a 1-on-1 chat, before 30 September :
<http://cern.ch/go/D7B6>

"What proposed accelerators are you interested in?"

"What's it like to work at your facility?"

"What questions do you want to answer in the next 40 years?"

"What are your plans after graduating?"

"Want to hear about my sourdough starter?"

contact: snowmass-ec-inreach@fnal.gov

Any Questions/Concerns?

Special Event Talks

12:00 PM → 12:05 PM **News and Announcements**

Speakers: Amber Roepe, Grace Cummings (University of Virginia)

🕒 5m

12:05 PM → 12:20 PM **Special Event: MC Tutorial Series**

Speaker: John Stupak (University of Oklahoma)

🕒 15m

12:20 PM → 12:40 PM **Special Event: BSM@ep Colliders**

Speaker: Oliver Fischer (University of Liverpool)

🕒 20m

12:40 PM → 1:05 PM **Updates from Topical Groups (if there is time)**

🕒 25m

Updates From Liaisons
