Subject: Calendar Year (CY) 2022 Fermi National Accelerator Laboratory Nuclear Materials Physical Inventory Report

Dear Mr. Snyder,

Fermi National Accelerator Laboratory completed the CY 2022 Other Accountable Nuclear Materials (OANM) physical inventory during the month of July 2022. The OANM database inventory was compared to the physical inventory and all accessible items and containers were verified by Material Balance Area Custodians and the Nuclear Materials Representative. The Fermilab nuclear materials inventory is reconciled with the DOE Nuclear Materials Management and Safeguards System. Additionally, access controls for each location where OANM are stored were reviewed and found to be appropriately controlled for Category IV, Attractiveness Level E, OANM.

If you have questions, please contact Kathy Graden of the ES&H Section at (630) 840-4939.

Sincerely,

Amber M. Kenney
Chief Safety Officer
