

Computing Contributions Board

Meeting

Agenda: <https://indico.fnal.gov/event/46301/>

□ The CCB purpose

- To receive reports and requests from DUNE computing management
- To receive the annual DUNE computing capacity requirements
- To satisfy capacity requirements through DUNE partners
- To respond to any other requests in respect of computing resources from the computing management or DUNE management
- To provide official expectation requests where needed
- To seek contributions of software engineering staff effort for the creation of the computing software infrastructure (NOT analysis);

Timeline & today

- ❑ 2022 numbers were “checkpointed and published in 2021”
- ❑ A formal CCB document “210900-CCB-2022-Requests” was circulated to CCB to solicit “pledges”. This document is attached to this item.
- ❑ CCB Members were asked to pledge against this.
 - ❑ We will look at this later
 - ❑ Several members questioned the pledge request in the light of underuse in 2021
- ❑ Today the main business is for computing management to
 - ❑ present 2021usage (with discussion)
 - ❑ Present 2022 requests
 - ❑ CCB to review current pledges against requests.
- ❑ We finish with a round table for any member to raise any issue
