

# Superheroes in STEM 2021

Minerba Betancourt and Leo Aliaga

May 1, 2021

# Don't forget about our other programs!

***Please check out our other opportunities to:***

- ▶ Engage with the science and technology of Fermilab
- ▶ Interact directly with Fermilab scientists, engineers, technicians

Saturday morning physics: <https://saturdaymorningphysics.fnal.gov>

- » *Introduction to Fermilab*
- » *Relativity*
- » *Quantum Mechanics*
- » *Particle Physics*
- » *Accelerators and Detectors*
- » *Quantum Computing*
- » *Neutrino Physics*
- » *Astrophysics and Cosmology*
- » *Energy and Climate*
- » *Physics and Society*
- » *LHC Physics*

# Don't forget about our other programs!

***Please check out our other opportunities to:***

- ▶ Engage with the science and technology of Fermilab
- ▶ Interact directly with Fermilab scientists, engineers, technicians

Summer internships: <https://internships.fnal.gov>

## **TARGET - Fermilab's science and Engineering Program**

For 10th and 11th graders in Illinois

*Any question contact to [TAInternships@fnal.gov](mailto:TAInternships@fnal.gov)*

## **QuarkNet Summer Research Program**

Current for 10th, 11th and 12th graders

# Don't forget about our other programs!

***Please check out our other opportunities to:***

- ▶ Engage with the science and technology of Fermilab
- ▶ Interact directly with Fermilab scientists, engineers, technicians

Summer internships: <https://internships.fnal.gov>

## **Community College Internships (CCI)**

For community college students.

## **LBNF/DUNE in South Dakota FSCF Internship**

Undergraduate engineering internship for students majoring in mining and related fields

## **Helen Edwards Summer Internship**

For physics and engineering majors in European countries.

## **Lee Teng Internship**

Accelerator science and engineering internship

# Don't forget about our other programs!

***Please check out our other opportunities to:***

- ▶ Engage with the science and technology of Fermilab
- ▶ Interact directly with Fermilab scientists, engineers, technicians

Summer internships: <https://internships.fnal.gov>

## **Summer Internships in Science and Technology (SIST)**

For under-represented minorities majoring in STEM fields at 4-year US colleges

## **Science Undergraduate Laboratory Internship (SULI)**

Sponsored by the Department of Energy. For undergraduate physics or engineering majors.

## **SQMS Quantum Undergraduate Internship**

For undergraduate sophomore/junior physics and engineering majors for researching in quantum science and technology.

## **VetTech Internship Program**

For military veterans to intern as a technician to provide technical support for an experiment

# Let us know what you think!

**We welcome any and all feedback on your experience today:**

- ▶ *Likes*
- ▶ *Dis-likes*
- ▶ *Suggestions*
- ▶ *New ideas*

**Please fill out the feedback survey: [link here](#)**

Thank you!
