

MTA: MeV Test Area

Jason St. John

Friday 9 O'Clock

2021 Feb 26

Run ended; working to improve beam line

- Swapped former UMW5 for UMW8, attempt to restore profile monitoring at beam window. *Thanks, Kubinski & Briney!*
 - *Thanks to Jeremy Arnold & Dan Mcarthur for cable shield check & the new scanner!*
- Working with experiments to improve alignment methods
- Investigating unexpected activity on supervised access RWP map. A few candidate explanations to be tested today.
 - *Major thanks to Sue & Joel & Paul in Rad Safety*
