From: Matthew Quinn, Senior Radiation Safety Officer *Matthew Quinn*
Re: Approval of MTA Shielding Assessment

Message:

Keith,

I have reviewed your memo of August 24th, 2020 recommending my approval of the Shielding Assessment Document for the MeV Test Area at the Fermilab Linac Endstation, dated August 24th 2020.

I concur that the assessment is satisfactory in terms of methodology, completeness, and compliance with the Fermilab Radiological Control Manual and thus approve of this assessment and planned operations within its scope.
