From: Matthew Quinn, Senior Radiation Safety Officer *Mat Q - 2/11/20*
Re: Approval of Shielding Assessment

Message:

Keith,

I have reviewed your memo of February 10th, 2020 recommending my approval of the Muon Campus Shielding Assessment for 8 GeV Beam Transmission to the Diagnostic Absorber, dated February 5th 2020.

I concur that the assessment is satisfactory in terms of methodology, completeness, and compliance with the Fermilab Radiological Control Manual and thus approve of this assessment and planned operations within its scope.
