

"Big Questions in... Higgs Physics"!

This series aims "to explore the underlying questions that motivate Snowmass studies, and give an idea of how an early-career scientist might hope to address them over the course of a career in research."

Today **Sally Dawson (BNL)** and **Caterina Vernieri (SLAC)** will tell us about **Higgs Physics**.

Afterwards, please "**raise your hand**" to ask questions and we can open your microphone

Stay tuned for more topics in the coming months, as we ramp up our Early Career activities!

Snowmass Early Career Equity, Diversity, and Inclusion
and CommF03 Frontier Present:

Town Hall on Navigating mentor/mentee relationships

JUNE 8, 2021, 11-1pm ET
