

LArSoft Steering Group Meeting Notes, June 17th, 2021

There were no attendees at the June quarterly Steering Group Meeting, so we have highlighted the June updates in red in the work plan. If you have any comments or concerns related to this update or with the work or direction of the project more generally, please let us know at erica@fnal.gov and klato@fnal.gov. We can meet to discuss things in more detail as needed.

Erica and Katherine
