

Snowmass Early Career

Frontier Liaising and Core Initiatives

by Sara Simon

with Josh Barrow and Mateus Carneiro

Opportunities to Engage and Impact the Future of HEPA

- Snowmass is an opportunity to shape the future of High Energy Physics and Astrophysics (HEPA)
- There are many ways to engage!
 - Go directly to Frontier and Topical Group conveners, write white papers, get your ideas out there!
 - Snowmass Early Career can help connect you via the #welcome-to-snowmass Slack channel
 - Early Career liaisons in each of the frontiers
 - Also a #snowmass-young Slack channel for general EC announcements

Opportunities for Networking, Community Building, and Advocacy

- Early in Snowmass process, there was wide community feedback that the community wants an Early Career organization that persists beyond Snowmass
- SEC Core Initiatives are engaging in the Snowmass process and we plan for them to persist beyond Snowmass
 - Long-term organization
 - Diversity, equity, and inclusion
 - Inreach
 - Survey
- #welcome-to-snowmass
 Slack channel to join

An Opportunity to Make Your Individual Voice Heard

Take the Survey HERE

- SEC Initiative, but encourage full HEPA community to participate in survey
- Deadline of August 15th (~1 week left)!
- Collects opinions & experiences across
 - Careers
 - Physics Outlook
 - Workplace Culture
 - Harassment/Racism
 - Visa Policies
 - o COVID-19
 - Demographics

- Fermilab News Article
- Any questions? Suggestions? Ping us at <u>SNOWMASS21-SURVEY@fnal.gov</u>

Join us!

Upcoming SEC events in September (dates TBD):
Big Questions Colloquium Series: Muon g-2
Snowmass Orientation

Visit the <u>Snowmass 2021 webpage</u> to learn about Frontiers, white papers, and SEC!

We hope to see you on the #welcome-to-snowmass Slack channel!
