

2021 IOTA/FAST Collaboration Meeting

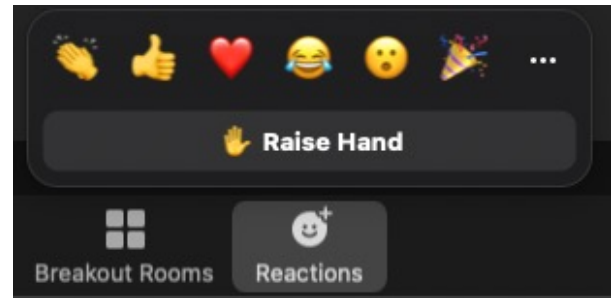

Welcome and Logistics

2021 IOTA/FAST Collaboration Meeting

- This is the 9th meeting of the series that started in 2013 from the discussions of ASTA scientific program
 - FAST/IOTA or IOTA/FAST name since 2016
 - Participation stable at ~100
 - Second fully virtual
- Organizers/contacts
 - Daniel Broemmelsiek
 - Sergei Nagaitsev
 - Giulio Stancari
 - Alexander Valishev
 - Lisa Lopez – llopez@fnal.gov 630-840-3674

Zoom Reminders

- We are using one Zoom meeting ID for all three days
- Please mute your microphone when not talking and be mindful of your background noise when it is not.
- When asking a question, please 'raise your hand'.

- Questions/comments can be placed in group chat.
- Reminder to speakers: this is a collaboration meeting / workshop! Please allow time for discussion.

Meeting Goals

- Review of the overall science program, strategy and approach
- Review of facility performance, capabilities, and planned upgrades
- Reports from experiments of IOTA/FAST third run
- Discussion of short-term goals and plans, establishment of priorities
- Discussion of the future research and long-term vision and path for IOTA/FAST

Group Photo (sort of...)

- We propose to take zoom videoconference group photos:
 - Today at 11:55AM – at the end of morning session.
 - People who want to be in the picture can turn on their cameras, and we will take screenshots.
 - Zoom supports up to 49 icons per screen, so one or two screenshots should allow us to capture everybody.
