

AI/ML FOR PARTICLE ACCELERATOR, X-RAY BEAMLINES AND ELECTRON MICROSCOPY WORKSHOP @ ARGONNE

OPENING REMARKS

ORGANIZING COMMITTEE

Michael Borland (APS)
Martin Holt (NST)
Charudatta Phatak (MSD)

John Power (HEP)
Nicholas Schwarz (APS)
Jianguo Wen (NST)

Brahim Mustapha (PHY)
Olle Heinonen (PSE)

November 1st - 3rd, 2021
Argonne, IL (Virtual)

WORKSHOP OBJECTIVES / GOALS

- ❑ Review the different AI/ML methods and techniques developed and applied in the fields of Particle Accelerators, X-ray Beamlines and Electron Microscopy.
- ❑ Inspire the use of new or different AI/ML techniques. Although the specific problems are different, applicable AI/ML methods maybe similar.
- ❑ Exchange ideas and learn from each other experiences.

WORKSHOP FORMAT

- ❑ Six sessions covering the following topics:
 - Tuning and Control
 - Data Analytics
 - Imaging and Data Processing
 - Failure Detection, Virtual Diagnostics, and Digital Twins
 - Autonomous Discovery
 - Data, Computing, and Modeling
- ... some topics are tightly related and cannot be separated!
- ❑ Each session ends with ~ 30 min discussion.

WORKSHOP ROLL-OUT

- Talks are 20-25 min, we may not have time for questions after the talks, please take note to ask in the discussion session.
- Speakers are asked to remain through the end of their session to participate in the discussions.
- Speakers who can't stay, please let us know and we will allow questions after your talks.

WORKSHOP ROLL-OUT

- Speakers can share their screens for their presentations, but if there is an issue, we can share it for you.
- Speakers, please send your presentations when ready, we will post them on the Workshop indico webpage.
- The sessions will be recorded, please let us know if you have an issue with that?

WORKSHOP DISCUSSION SESSION

- Open discussion by the audience to all speakers of the session.

- When the questions from the audience are exhausted, we switch to a panel discussion moderated by the session's chair and all speakers of the session.

WORKSHOP PROGRAM

□ The program can be found at the indico webpage below:
