In all the topical groups

- **Contributed papers topics are defined**
 - Additional ideas / suggestions may be considered, provided suggestions / ideas are accompanied with additional person-power.
- **But in various stages of development**
- **However, more community participation is needed**
 - Contributions to flesh out targeted topics of limited scopes and durations
 - Please contact topical groups conveners or contributed paper leaders for details
- **Big question**
 - Do we risk dropping some contributed papers in case community participation does not improved?
 - Perhaps consider descoping? But list the un-covered topics our topical group and frontier reports.
