

# Preparations for LOI

- Steve Geer's SB neutrino task force is to report to Pier in May
- Will have open meeting (with presentations) towards end of March
- Fermilab June (late) PAC meeting may (or may not) take up SB neutrino oscillation physics
- If we want to present, must submit to PAC by May 18th

# LOI

- Need not be a “detailed” proposal, but should
  - Be detailed enough to judge scientific merit, ie, *“is there is enough for the PAC to give serious consideration to what is in the document”*
    - Large  $\delta m^2$  oscillation physics
    - $\nu$  cross-section measurements
    - Technology development/demo
  - Have preliminary cost information
- June PAC:
