

# **NuSTEC Publication Oversight working group**

**Jorge Morfin, Linda Cremonesi, and Andy Furmanski**

**NuSTEC Board Meeting, December 2021**

# Publication oversight working group

**Jorge Morfin**  
Fermilab

**Linda Cremonesi**  
Queen Mary University of London

**Andy Furmanski**  
University of Minnesota

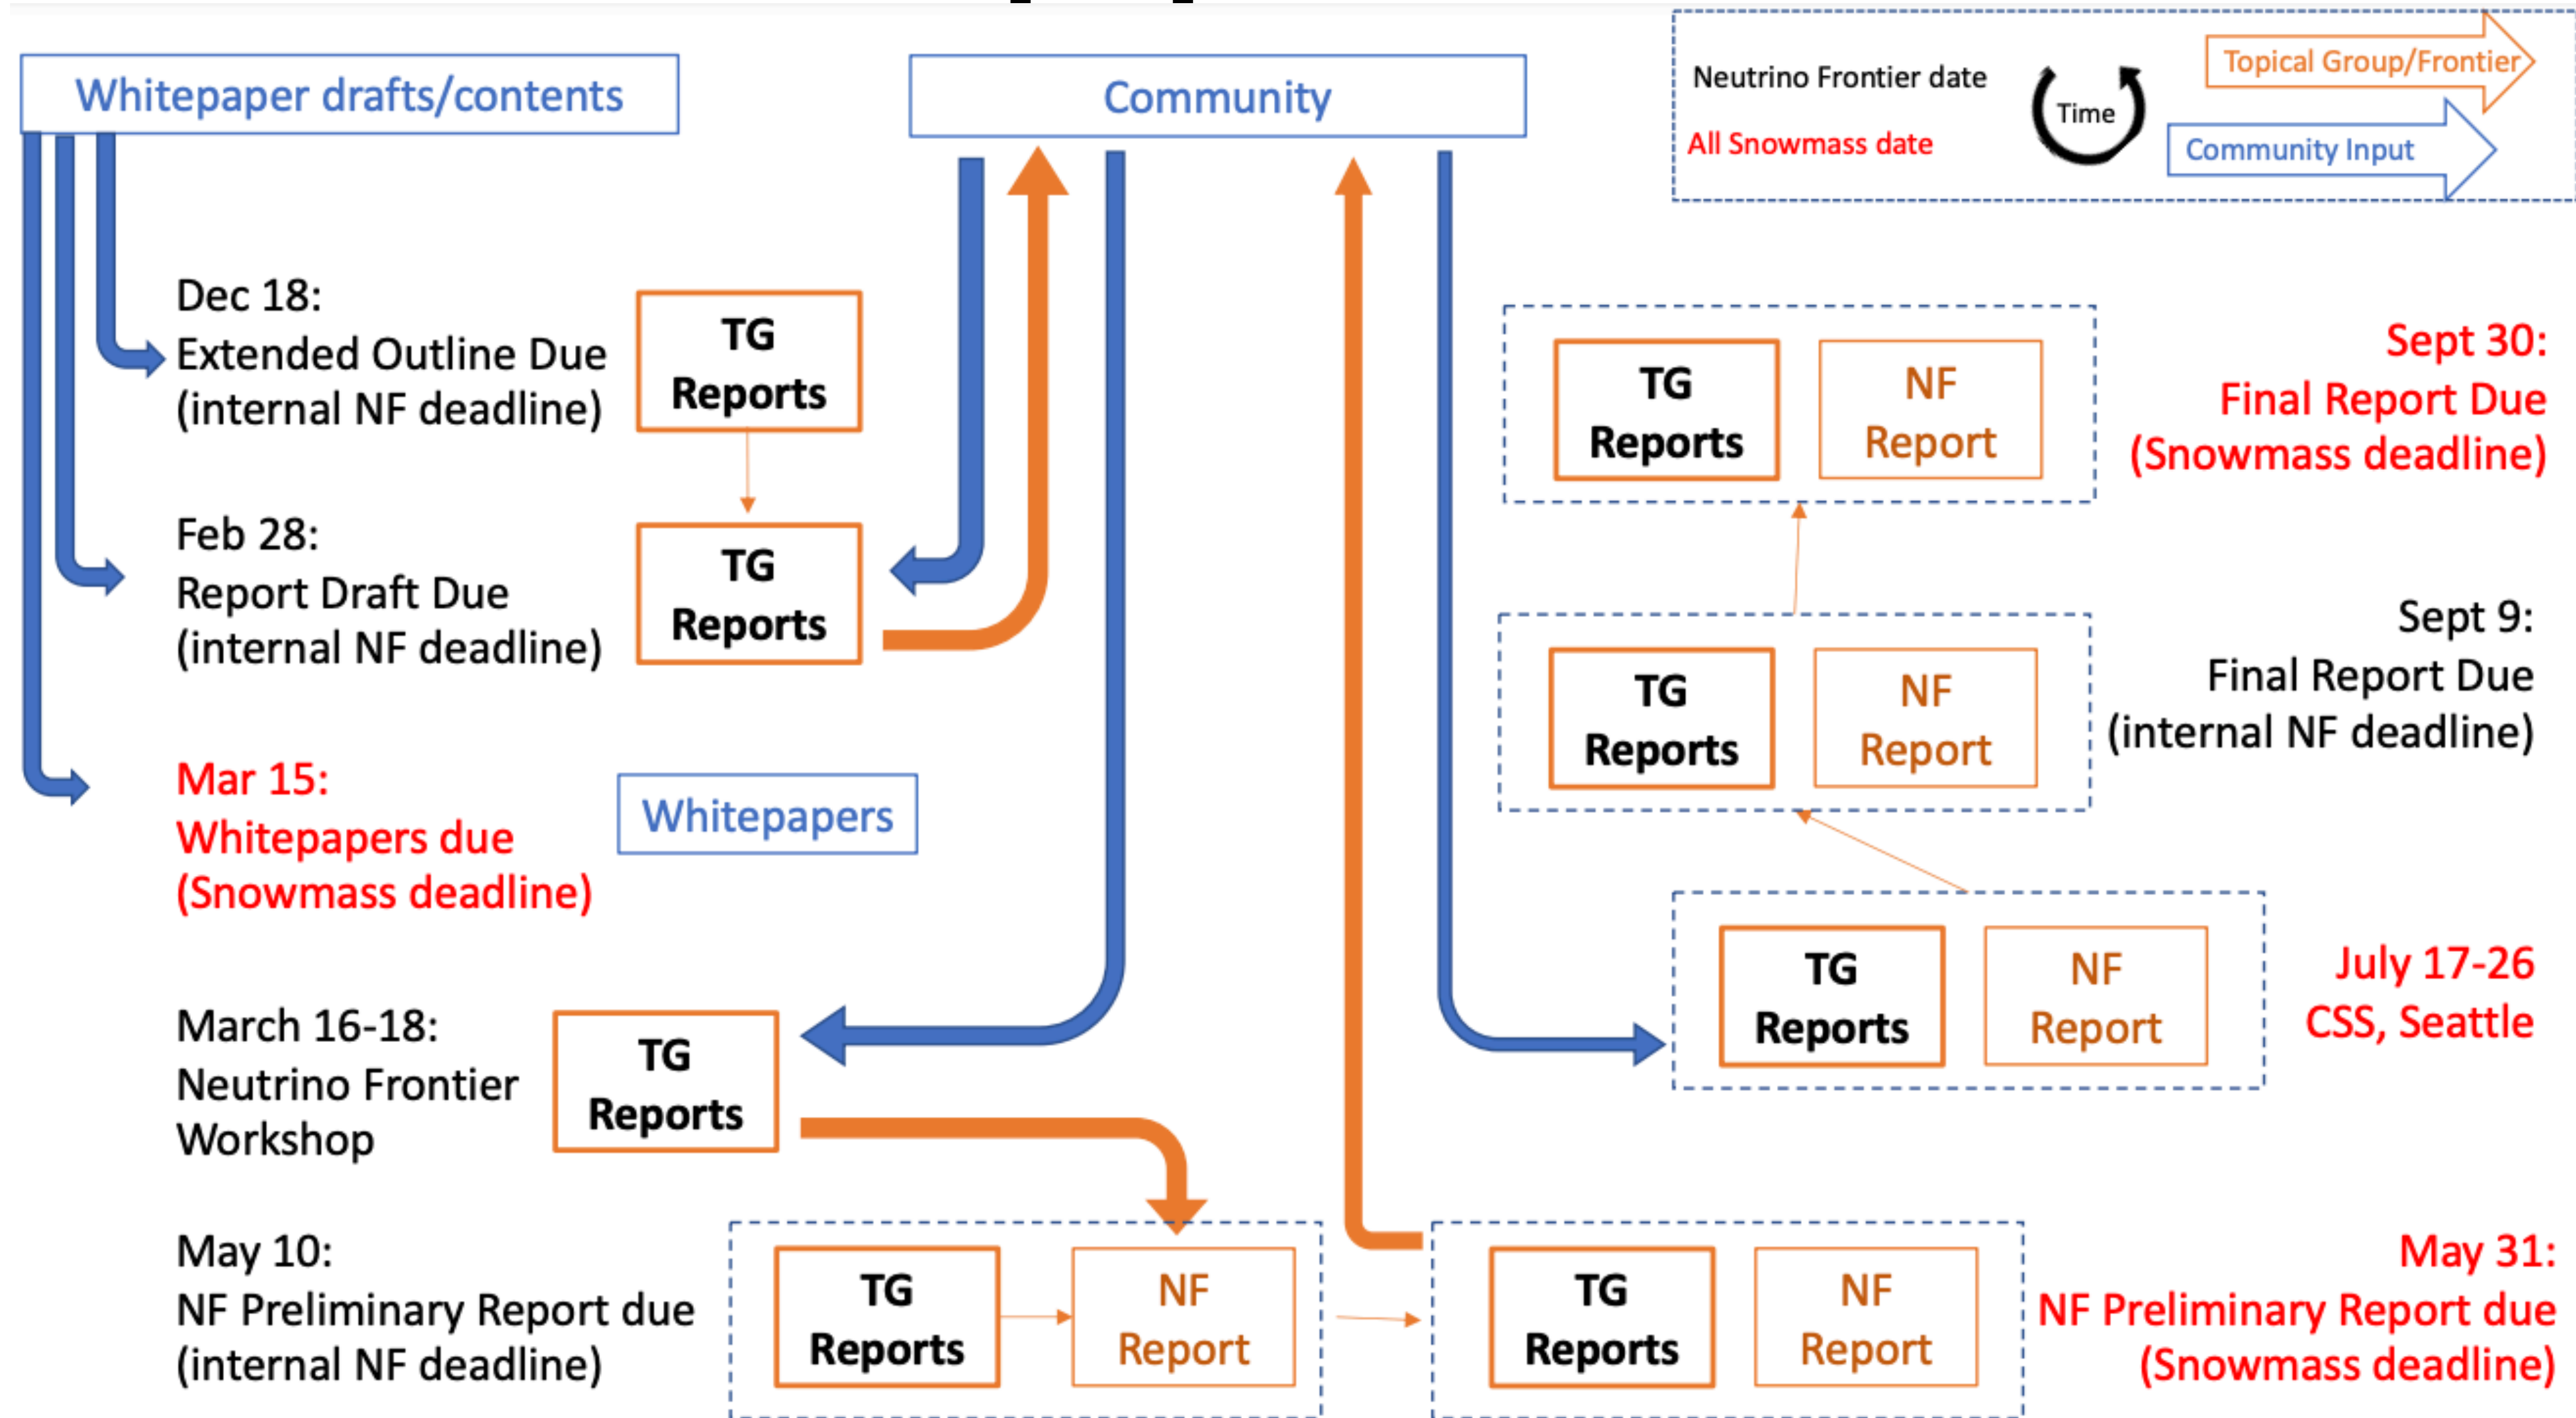

**Mission: oversee and coordinate/commission NuSTEC publications**

# Snowmass: Frontiers in Neutrino Physics

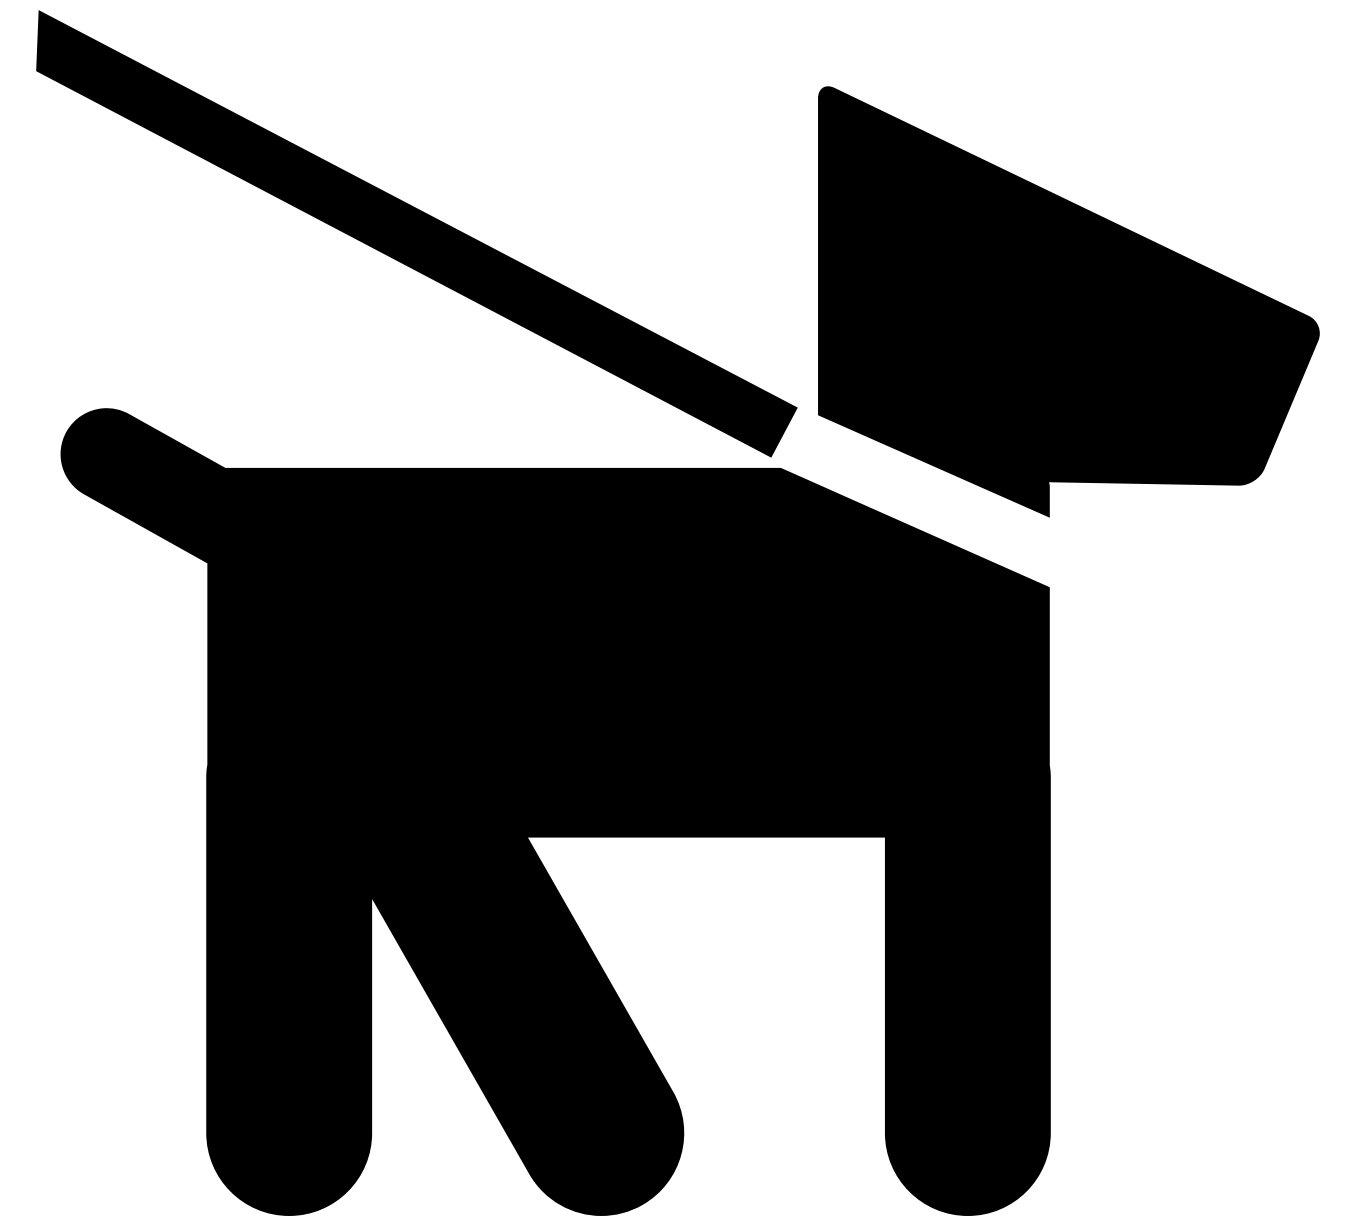

- **NF06: Neutrino Interaction Cross Sections:**
  - Co-Conveners: Jonathan Asaadi (UT Arlington), Baha Balantekin (U. Wisconsin), Kendall Mahn (Michigan State U.), Jason Newby (ORNL)
- 55 submitted Lols, ~10 white papers in progress
- A series of 1.5 hours white papers coordination meetings happened in the autumn (links here: <https://snowmass21.org/neutrino/start>)
- Current submissions here: <https://docs.google.com/spreadsheets/d/1ORQe5LYSaLQ7rsg7UihID485cUDAxWlb9qZsOlgutls/edit#gid=0>
- We are late! (See next slide)

# Snowmass white papers flowchart

# Snowmass NuSTEC mini white paper

- We propose to write a **MINI WHITE PAPER** to pull together and unify existing neutrino interaction white paper efforts.
- We will be concentrating on open issues, indicate priorities and timescales.
- We could divide priority recommendations for neutrino oscillation and nuclear physics experiments.
- We will shortly reach out to the board to start writing the first draft.
- Questions/Comments?

# Update on “long” white paper

- Our first white paper was released in 2017.
- We propose to work on an update of this white paper with a timescale of 2 years.
- Far enough from the “mini” white paper that it is not redundant.
- This update will include everything we achieved since 2017 and it will take a good amount of resources to put it together.
- Questions/Comments?

# NuSTEC publications

- NuSTEC working groups generate invaluable discussions for the community. Could these become papers?
- If NuSTEC working groups / members would like to write a paper, the publication oversight group could:
  - Set up review committees
  - Organise papers with a NuSTEC preprint numbering system
  - Credit NuSTEC with a standard acknowledgement sentence
- Questions/Comments?
