Democratizing Access

The Minds We Need

- **Connect every community college, every minority serving institution, and every college and university, including all urban, rural, and tribal institutions** to a world-class and secure R&E infrastructure, with particular attention to institutions that have been chronically underserved;
- **Engage and empower every student and researcher** everywhere with the opportunity to join collaborative environments of the future, because we cannot know where the next Edison, Carver, Curie, McClintock, Einstein, or Katherine Johnson will come from; and

Democratizing Access

during the year ending on March 9th 2022

- **64 US institutions contributed compute resources**
- Out of these 64 institutions in the USA
 - **9 are Minority Serving Institutions (MSI)**
 - 10 are in EPSCoR states
 - 13 are non-R1
 - **26 of the 64 that contribute resources are MSI, EPSCoR or Non-R1**
- **Researchers from 112 US institutions did science on OSG**
 - **14 of these institutions are Minority Serving (MSI)**
 - 19 are in EPSCoR states
 - 30 are Non-R1
 - **Researchers from 47 of the 112 are from MSI, EPSCoR or Non-R1**
