## **Fostering Engagement, inclusion and Enabling Access: Working Alongside Historically Underserved Institutions in the United States**

*Tuesday, March 15, 2022 11:35 AM (25 minutes)*

Internet2 is working in collaboration with several Minority Serving Institutions through the Minority Serving – Cyberinfrastructure Consortium (MS-CC), striving to reduce the gap between their campus networks and the global R&E ecosystem. Internet2 and the MS-CC were recently awarded a pilot CoE award aimed at providing historically Black colleges and universities, and tribal colleges and universities, with programs and services that address their cyberinfrastructure needs. Fostering these engagements and working alongside the MS-CC is driven by Internet2's desire to ensure the equal participation of historically underserved institutions in both the U.S. and global R&E communities.

**Presenters:** HUNSINGER, Ana (Internet2); WILLIAMS, Lawrence (Internet2)
