

FIFE Meeting

Lisa Goodenough

3rd February 2022

Agenda

- **News**
- **talk by Tammy Walton: g-2 Production Shifts**
- **AOB**

News

- **Reminder: Maintenance downtime scheduled for Wednesday January 19th to migrate the exp/app and other NAS NFS volumes to newer back-end arrays has been moved to the February downtime (February 16th) - an email will be sent out with details before the 16th**
- **On Wednesday, new versions of ifdhc (v2_6_1), ifdhc_config and fife_utils (v3_5_0) were made “current”.**

ifdh v2_6_x

from Marc Mengel's talk
in FIFE Meeting 01/20/22

New release featuring:

- **SciToken support (off by default)**
 - `export IFDH_TOKEN_ENABLE=1`
 - `export IFDH_PROXY_ENABLE=0`
 - `ifdh getToken`
- **Default protocol for most sites now https:**
 - `gsiftp`: support going away soon
 - Preparation for SciToken migration
 - Changes what you get if you just say `/pnfs/experiment/...`
 - `ifdh chmod` becomes a no-op
 - Some Larsoft users already guinea pigs for this
- **For SciToken migration, experiments should**
 - (Re)Build active code releases against a v2_6_x release
 - By November

AOB
