

NuInt12 : Eighth International Workshop on Neutrino-Nucleus Interactions in the Few-GeV Region

Thursday, 25 October 2012

Pion production and other inelastic processes (09:00 - 15:30)

time	[id] title	presenter
09:00	[71] Weak pion production off nuclei	Dr HERNÁNDEZ-GAJATE, Eliecer
09:30	[72] Neutrino-induced forward meson production reactions in nucleon resonance region	Dr NAKAMURA, Satoshi
10:00	[73] Strange particle production from nucleons and nuclei	Dr ATHAR, MOHAMMAD SAJJAD
10:30	Coffee break	
11:00	[74] Charged pion production results from MINERnA	Mr EBERLY, Brandon
11:20	[75] Charged pion production results from T2K	Mr MATTHEW, Murdoch
11:40	[76] Comparisons of theoretical calculations with MiniBooNE pion production data	Dr LALAKULICH, Olga
12:05	[77] Discussion	
12:30	Lunch	
14:00	[78] Photon emission in (anti)neutrino neutral current interactions with nucleons and nuclei	Dr ALVAREZ-RUSO, Luis
14:30	[79] Neutral pion results from T2K	Dr VACHERET, Antonin
14:50	[80] Coherent and neutral pion production results from MINERnA	Mr PALOMINO GALLO, Jose Luis
15:10	[81] Discussion
