

NuInt12 : Eighth International Workshop on Neutrino-Nucleus Interactions in the Few-GeV Region

Thursday, October 25, 2012

CC and NC quasi-elastic scattering (4:00 PM - 6:00 PM)

time	[id] title	presenter
4:00 PM	[102] CC and quasi-elastic introduction	MAHN, Kendall
4:25 PM	[103] MiniBooNE anti-nu quasi-elastic and neutral current elastic analysis	GRANGE, Joe
5:00 PM	[104] CCQE results from MINERnA	Dr FIELDS, Laura
5:30 PM	[105] The T2K CCQE selection and prospects for CC, QE, NC cross section measurements	Mr RUTERBORIES, Daniel

Friday, October 26, 2012

CC and NC quasi-elastic scattering (9:00 AM - 10:30 AM)

time	[id]	title	presenter
9:00 AM	A16	Exclusive CCQE topologies in ArgoNeuT	Ms PARTYKA, Kinga
9:25 AM	A17	Consistent analysis of NC and CC neutrino scattering off carbon	Dr ANKOWSKI, Artur
9:45 AM	A18	QE scattering in the Relativistic Green Function approach	Mr MEUCCI, Andrea
10:05 AM	A19	CCQE, 2p2h excitations and nu energy reconstruction	Dr NIEVES, Juan
