

Energy Frontier Report

Meenakshi Narain (Brown U)

Laura Reina (FSU)

Alessandro Tricoli (BNL)

Snowmass All Conveners Meeting

March 18, 2022

Contributed Papers

- **86 Papers submitted so far to Energy Frontier**
 - Papers keep coming in (they were 71 only last night), and more are expected in coming days.
 - In few and specific cases we expect contributions in a few weeks time scale
 - No. authors per contribution vary from one to many authors
 - Several contributions are focused on reach of a small set of processes, while many other contributions are compendia of several studies
- **EF and Topical Group (TG) convenors are closely following submissions**
 - No. of submission is unevenly distributed between TG
 - In some cases this is by construction as TGs have decided to combine several studies in few comprehensive papers

EF01	EF02	EF03	EF04	EF05	EF06	EF07	EF08	EF09	EF10	X Frontier
12	1	6	7	1	6	2	9	19	9	14

Submission Issues?

- **Several people inquired about flexibility on submission date**
 - We encouraged submitters to let us (EF & TG convenors) know of any delayed submission
- **We are not aware of major disruptions due to war in Ukraine, except for LHC experiments**
 - ATLAS and CMS have frozen submission to arXiv
 - ATLAS and CMS submission to Snowmass is delayed, but we are aware of results that are coming, and we expect CDS submission soon.
 - CDS link will be temporarily used in place of arXiv link
- **In summary, no major issues were reported to us so far, but we have to be patient and allow more contribution to trickle in**

EF workshop

- **Energy Frontier Workshop:**

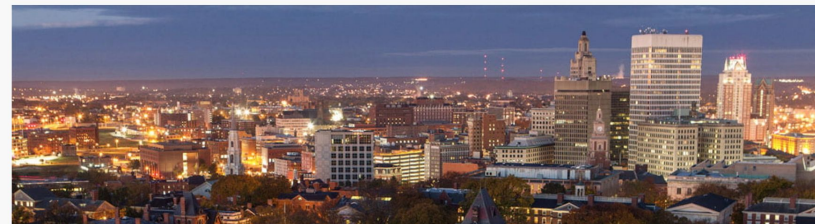

- When: **Mon, March 28 - Fri, April 1**
- Where: **Brown University**
- How: **Hybrid**
 - Proof of vaccination and masks needed for in person attendance
 - Professional Close Captioning provided in Zoom (thanks to BNL DEI Office)
- Agenda: <https://indico.fnal.gov/event/52465/>
- Webpage: <https://sites.brown.edu/efworkshop/>

- **Virtual participation is free for all**, but you have to register to obtain a Zoom connection link prior to the workshop.
- **Fees for in-person participation:**
 - **Regular** in-person participation for 3 or more days - USD 275 [USD 400 after March 20]
 - **Student** in-person participation for 3 or more days - USD 175 [USD 300 after March 20]
 - **Daily** participation fee USD 80/day [USD 100 after March 20], if participating 1 or 2 days.
 - **Late registration fee will be charged starting March 21, 2022**

- The goal of this EF community workshop is to regroup after the submissions of the contributed papers.
- Contributed papers will serve as the basis of the discussions which will define TG and EF reports and formulate our vision for the EF.
